

OUTDOOR GAMES

Get ready to unleash your creativity and energy with these fun, colorful outdoor activities! Each game is designed to spark imagination, encourage movement, and make the most of Crayola's outdoor products. Let's head outside and play!

Chalk-A-Boomz Games & Activity Kit

Dive into a world of color and creativity! Use the Chalk-A-Boomz Games & Activity Kit to stamp, stencil, and draw with vibrant chalks and playful shapes. Mix and match the tools to invent your own games or create dazzling sidewalk masterpieces. There's no limit to what you can imagine!

Chalk-A-Boomz Counting Game

Draw a numbered grid on the ground. Take turns tossing a Chalk-A-Boomz onto the numbers, counting up as you go. The first player to reach number 10 wins! Try different colors and see who can count the fastest.

Obstacle Course

Transform your driveway or playground into a vibrant obstacle course! Use stencils and chalk sticks to draw paths, jumps, hops, and balance lines. Challenge friends to complete the course—jump, hop, balance, and skip your way to the finish line. Who can complete it the fastest?

Cosmic Art

Blast off into space with your art! Use Chalk-A-Boomz and chalk sticks to create planets, stars, and swirling galaxies. Experiment with colors and shapes to make your own cosmic scene—your sidewalk is your universe

Bullseye

Create a colorful bullseye with chalk rings worth different points. Take turns launching Chalk-A-Boomz toward the center and track scores as you go. Try trick shots—eyes-closed tosses or hop-and-throw—for bonus fun. Highest total after five rounds is the champion!

Chalk-A-Boomz Mini Golf

Design your own mini golf course right on the pavement! Draw circles for targets and surround them with creative shapes and obstacles. Each player picks a Chalk-A-Boomz color and takes turns tossing their piece, aiming for the target in as few throws as possible. The player with the lowest score wins—just like real mini golf!

Fill the Shapes Race

Draw a grid of circles or squares and challenge friends to "fill" them fastest. Toss Chalk-A-Boomz to color inside each shape, then finish with chalk stick touches to claim your space. First to complete their set wins—ready, aim, boom!

Mystical Orb Art

Create magical, soft circles of color! Toss or tap Chalk-A-Boomz onto the pavement to make ethereal orbs, then use chalk sticks to add details and patterns. Layer colors and shapes to design your own dreamy outdoor art gallery.

Fuzzy Monster Faces

Bring silly creatures to life right on the sidewalk! Place a face, eye, and mouth stencil, then "boom" bright color around the edges for a fuzzy glow. Layer Chalk-A-Boomz bursts with chalk stick details—spiky hair, goofy grins, and wild eyebrows—to invent a whole squad of friendly monsters. Snap a photo of your funniest face and give it a name!

Fantastic Florals

Use the flower stencil to make a field of 20–10 flowers in different flower colors. Kids label each flower with a number (10–1 or 20–1). Place Chalk-A-Boomz at the starting line.

How to Play

Call out a number or color ("Find the purple flower!"). Kids race to the right flower and toss a Chalk-A-Boomz to "make it bloom." The Chalk-A-Boomz burst creates a vibrant "petal explosion."

Bonus Variation

Kids can connect their "bloomed" flowers with chalk trails to build a full garden mural.

Airbrush-style Art!

Use stencils with your Chalk-A-Boomz to dab different colors all around the outside of the stencil. When you lift-up your stencils, you'll have an almost airbrush-look outline to the shape underneath. You can then color in your shape with your chalk sticks or leave it just like it is!

Shape Tag

Stencil a field of shapes and pick a caller. When a shape is called, sprint to it to stay safe from the tagger. Rotate callers, shuffle the shapes with new colors, and keep the game

Chalk-A-Boomz Trivia Challenge

Draft trivia questions with answers placed inside stenciled shapes. Ask away while players mark the shape they think is right with a Chalk-A-Boomz splash. Score a point for each correct match—study time turns into a bright, active game show!

Chalk Town Designer

Draft roads, parks, and cozy neighborhoods with crisp chalk lines. Add buildings, crosswalks, and lakes, then drive toy cars through your custom city. Keep expanding—new districts, colorful landmarks, and playful traffic patterns welcome!

Weather Person for a Day

Chart the day's forecast on a giant chalk board: sun icons, cloud puffs, raindrops, or snowflakes. Add temperature bars and wind arrows, then update it daily for your block's most colorful weather report. Science class meets sidewalk style!

Dance & Race with Colors & Shapes

Use outdoor chalk to draw a large circle on the sidewalk for the game play area/dance floor. Use stencils and chalk to create a variety of colorful shapes inside your circle. Have an adult play some music and everyone dances on the outside of the circle until the adult stops the music and calls out a shape and color. Each person then has to stand on a shape that is either the right shape or right color. The last person on a correct shape or color is out for that round, until there is one winner. Play again—and-again!

Add to the Story!

Start with a simple chalk scene and a short prompt—then pass the chalk! Each player draws the next plot twist using stencils and Chalk-A-Boomz highlights. Watch your sidewalk tale grow from tiny idea to epic adventure—complete with heroes, creatures, and surprise endings.

Tic-Tac-Toe

Sketch a bold grid, pick your symbol, and take turns marking squares. Try color-coded Xs and Os or custom icons for flair. First to three in a row wins—rematch with fresh colors and creative patterns!

Nature Mandala

Collect leaves, sticks, and flowers, draw a big circle, and arrange your finds into repeating patterns. Use chalk color to connect the shapes and add symmetry. Step back and admire your calm, balanced mandala—nature and art, perfectly in tune.

Color Splash

Assign each sidewalk shape a specific hue, then race to match shots by color. Players aim Chalk-A-Boomz at the right shapes—accurate hits score points, splashes outside the lines don't count. Switch colors each round to keep everyone on their toes and your artwork brilliantly bright.

Guess the Animal

Write animal names on paper slips, draw one at random, and sketch your creature on the pavement. Use stencils for shapes and Chalk-A-Boomz for fuzzy fur or feathered glow. The group guesses; correct answers earn a point. Swap slips and keep the safari going!

Outdoor Checkers

Draw a large checkerboard with alternating colored squares and gather wood chips or flat rocks as pieces. Set up, strategize, and hop your way to victory. Bigger boards mean bigger moves—invite neighbors for a friendly tournament!

Chalk Story Path

Lay a winding trail with illustrated prompts—dragons, keys, and secret doors! Walk the path, stop at each prompt, and add characters or clues as your story unfolds. By the end, you'll have a whole adventure mapped in color.

Chalk Portrait Studio

Strike a pose and let friends trace your outline. Add costumes, capes, and comic-style effects with Chalk-A-Boomz glows and bold chalk details. Turn the sidewalk into a runway of superheroes, athletes, and silly portraits.

Underwater Scenes

Dive into a chalky sea! Sketch friendly fish, bubbly trails, and wavy water lines, then add Chalk-A-Boomz fades for glowing reefs. Pose with goggles or a playful swim stance for a photo inside your ocean world—catch the moment before the tide (of giggles) rolls in!

Coloring Relay Race

Form teams and set a stencil station down the path. Runner one dashes to draw a shape, sprints back to tag the next teammate, and so on. Every team must complete one of each stencil design—first to finish the set wins the relay!

Four Square

Outline a giant square and divide it into four equal courts. Serve with a bounce and tap to keep the ball in play—no double bounces, no line hits, no holding. When someone is out, rotate squares and keep the rally lively. Who will be king or queen of the court?

Giant Board Game

Design larger-than-life spaces with playful commands—"move forward," "spin," "jump back." Players become the pieces, advancing on rolls or spins and performing each action with style. Make house rules and power-ups for extra excitement

Shadow Tracing Gallery

Trace friends' shadows at different times of day to capture shifting shapes and sizes. Decorate each outline with patterns, costumes, and Chalk-A-Boomz halos, then line them up as an outdoor art gallery. Return later to compare how the sun changed your silhouettes!

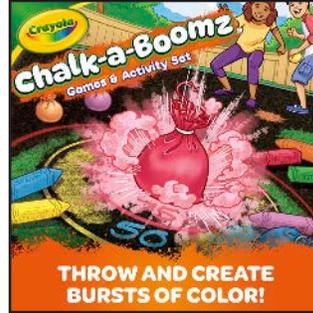

OUTDOOR GAMES

Get ready to unleash your creativity and energy with these fun, colorful outdoor activities! Each game is designed to spark imagination, encourage movement, and make the most of Crayola's outdoor products. Let's head outside and play!

Chalk-A-Boomz Games & Activity Kit

Dive into a world of color and creativity! Use the Splat Games & Art Kit to stamp, stencil, and draw with vibrant chalks and playful shapes. Mix and match the tools to invent your own games or create dazzling sidewalk masterpieces. There's no limit to what you can imagine!

Alphabet Adventure Trail

Draw letters in a zig-zag path and hop from A to Z. Shout a word for each letter as you land— animals, foods, or favorite places. Race a friend or time yourself and try a new theme every lap!

Color Splash Dance Floor

Scatter large colored circles, start the music, and dance between hues. When the song stops and a color is called, scramble to land on it—last to touch that color is out. New song, new color, same dazzling moves!

Challenging Quest

Quest to collect all four symbols! Stencil one arrow, a smiley face, a flower, and a star in a row to create the "Symbols Quest". Then draw 4 tossing circles at different distances from the row of symbols. Each symbol stands for a challenge: Arrow means movement (hop, spin, zig-zag), Smiley means silly (funny face, joke, silly dance), Flower means nature (collect leaves, find something green), and Star means skill (aim toss, balance task). Kids toss a Chalk-A-Boomz—where it lands closest decides their challenge. The first to complete all four quest types wins!

Forest Finder Color Quest

A scavenger hunt where every discovery becomes art! Use chalk sticks to draw a big "Nature Map" with zones like Leaf Lane, Rock Ridge, Flower Field, and Pinecone Park. Place one stencil—arrow, star, smiley, or flower—in each zone as a "drop point." Kids collect natural items from each zone, then return to the matching stencil and toss a Chalk-A-Boomz to "activate" the drop point, placing their treasures inside the chalk burst. Explore, create, and celebrate nature's colors!

Mystery Message Decoder

Write secret notes or riddles with symbols and color codes. Players solve step-by-step, revealing the hidden word or phrase as they go. Add Chalk-A-Boomz highlights for "aha!" moments when the final clue clicks.

Trajectory Tester

STEAM Focus: Physics, Math, Engineering! Kids become scientists, testing how toss angle and force change the landing spot of a Chalk-A-Boomz. Draw concentric circles like a target and place arrow stencils around the edge, pointing to each angle to test (straight up, 45, side-sling, and more). Mark a launch line. Kids repeat tosses at different angles, measure distance with chalk rulers, and compare which angle sends the Chalk-A-Boomz farthest. Experiment, record, and discover the science of splat!

Bug Hotel

Sketch a whimsical hotel with labeled rooms—ladybugs, ants, butterflies, and more. Explore outdoors to "check in" tiny guests by drawing them in their suites. Add fun facts and habitat touches, then celebrate your lively, learning-filled lodge.

Chalk the Walk Celebration!

Invite friends and family to celebrate a birthday or holiday by drawing something festive outside for all to see! If you're celebrating a birthday, write some kind words or draw a picture you know the person would love!

Starry Skies Toss Arena

A target-toss arena with dramatic splat reveals! Draw stars or circles of different sizes—tiny for a tough challenge, big for easy points. Write the number of points for each, inside the circles and stars. Draw a throwing line, where kids will toss Chalk-A-Boomz at the stars: hit inside the star for 10 points, land in the chalk circle for 5, and if you miss both, try again next round. Who will rack up the highest score and become the sky toss champion?

Colorful Constellation Creations!

Throw a Chalk-A-Boomz up in the air and let it land anywhere on the pavement. Do the same, again-and-again until you have 20-10 splats on the pavement. These are the Stars for your constellations Use your imagination and a piece of outdoor chalk to connect the stars and name your constellation!
